THREE-CENT RATE CASE MUST WAIT ON THE WAR

The three-cent fare case which was to have come up in Phoenix last week, has been definitely postponed and will not be set for hearing until after the war is ended, according to a stipulation entered into by the Southern Pacific and Santa Fe railroads and the Arizona corporation commission.

The case was to be set on the April calendar of the Federal court in Phoenix. Several years ago the Arizona corporation commission issued an or-

der that three cents should be the rate charged on main lines in Arizona. The Santa Fe and the Southern Pacific brought suit in the Federal court to restrain the commission from placing the order in effect. The court issued such an injunction, but with the provision that every ticket should have a refund check attached to it, in case the commission won out in the final suit. This final suit is what has been postponed until after the war.

WAR AREA COMPARISONS

In visualizing the conditions under which the European war is being fought, it would be well to appreciate that Arizona, with about 114,000 square miles of area and 204,000 population, is just about the size of Italy, with its 35,500,000 people. Belgium has 7,500,000 people tucked within about the same area as Maricopa county. France is about the size of Nevada and Utah, Germany of Wyoming and Colorado, Austro-Hungary of Texas and European Russia corresponds with the whole of the United States westward from a line drawn north and south through Kansas City.—Ex.

The exposition will continue for two months and will occupy the space around the Civic Auditorium which comprises thirty acres, as well as the big building itself. The space to be devoted to state and county exhibits will approximate 250,000 square feet, more than 1,500 head of livestock will be quartered in the southern portion of the auditorium grounds.

GERMANY PRACTICALLY A BANKRUPT NATION

Germany's total indebtedness is \$31,000,000,000, which means that each one of her 68,000,000 inhabitants, men, women and children, will be in debt \$456. Here in America, with a population of 110,000,000 our total indebtedness is only \$6,000,000,000, or a per capita indebtedness of only one-eighth that of the German citizen—a matter of \$57 each. We can run our Liberty Bond flotations up to \$50,000,000,000 before each one of us owes as much as each German across the Rhine.

In other words, we can run this war at our present rate of expenditures for eight years before we are as bad off as the Germans are today. Don't be frightened at the money we are spending. We are not "breaking" ourselves. We are spending very little of our national wealth. Buy bonds. If this war lasts for eight years, Germany will be so badly "broke" it can never be put together again.

Douglas school children have collected 500 pounds of tinfoil for the salvage department of the Red Cross. They are also collecting tin cans and selling them to the copper companies for use in the precipitation tanks.

A Tucson registrant changed the number on his draft certificate and is now in jail with a Federal charge lodged against him.

Prof. Fred Arthur Nims, of Flemington, N. J., has succeeded Harold Steele as superintendent of the Tucson schools. He is a graduate of Yale.

The Tucson National bank, a new institution with a capital of \$100,000 is now open for business. R. R. Cook, formerly vice-president of the Consolidated National bank of Tucson, is president.

A temporary organization of a branch of the National Association to Promote Universal Military Training has been formed in Tucson with 200 members.

R. E. Souers, superintendent of the Douglas schools, has been made a Y. M. C. A. secretary in war camp community service. He has not been notified when he is to report for duty.

Half the Cochise county road bond issue of \$1,000,000 has been sold to the Phelps-Dodge corporation at par and accrued interest. There were no other bids, but it is expected that the other half of the issue will be sold at a later date. The \$500,000 becomes immediately available.

A Douglas postman sold \$650 worth of Thrift Stamps in one day while making his rounds. Here is a postman who is entitled to more than passing recognition.

The Miami Red Cross has a membership of more than 3,000. Guess the concentrator city holds the record.

Pro-Germans are at work in Safford. They are circulating reports that sweaters made by Red Cross ladies are being sold in the stores of the Gila valley, and that it costs \$1 to put ten cents in France. The matter is being investigated.

Colonel Dave Hughes, who was with the Rough Riders in the charge up San Juan hill, was found in Miami profusely bleeding from wounds in the wrist, believed to have been self-inflicted. Hughes had been ill and despondent for quite a while.

The school children of Douglas have purchased over \$3,500 worth of thrift stamps, or over 14,000 stamps, since January 22d.

"Bill" Cleary, attorney for the wobbles of the state, and who was notified recently that a coat of tar and feathers was awaiting him at Bisbee, has gone to Chicago to assist in the defense of the hundred odd I. W. W. on trial there for the alleged violation of the espionage act.

The Santa Fe, according to a report from Phoenix, has appropriated \$741,000 to rebuild their line from Ash Fork to the capital city.

Springerville, Apache county, is to have a movie show.

The famous ruin at Casa Grande is to be made one of the "show places" of the national park system according to statements made recently by officials of the department.

The Miami Red Cross chapter, during the first eight months of its organization in 1917, raised more than \$8,000, according to a recent report of the chairman.

The plan of making tests this season of fabrics made from Arizona Pima cotton in actual flying tests of the U. S. signal corps, which was brought to the personal attention of Howard Coffin, chairman of the Aircraft board, has at last definitely materialized.

The following shows that the Red Cross workers in Apache county are not at all idle. They have sent since October, 1917, for our soldier boys: 103 pair of socks; 28 sweaters; 4 wristlets; 6 mufflers; 1 helmet; 6 pair pajamas; 4 hospital shirts and almost completed 10 layettes.—St. Johns Herald.
